

## Public Consultation Stage on the New Batch of Proposed Substances of Very High Concern

September 01, 2020, Member States of the European Chemicals Agency (ECHA) proposed 2 new substances to be identified as SVHCs. Deadline for commenting is October 16, 2020. All interested parties are invited to submit comments during the public consultation. The approved proposed substances will be regarded as the 24th batch of substances in SVHC candidate list. When the public consultation ended, if the 2 substances were accepted, there will be 211 substances listed on the SVHCs.

The 2 proposed substances listed as following:

| Substance Name  | EC No.    | CAS No.  | Reason for proposing                 | Possible use   |
|---|-----------|----------|--------------------------------------|--|
| bis(2-(2-methoxyethoxy)ethyl) ether   | 205-594-7 | 143-24-8 | Toxic for reproduction (Article 57c) | Can be used as a solvent for alkali gold hydrides. Can be used for the purification of synthesis gas, natural gas, acetylene and other gases |
| Diocyltin dilaurate, stannane, dioctyl-, bis(coco acyloxy) derivs., and any other stannane, dioctyl-, bis(fatty acyloxy) derivs. wherein C12 is the predominant carbon number of the fatty acyloxy moiety |           |          | Toxic for reproduction (Article 57c) | Can be used as a stabilizer for plastic products   |

For details, please click: [ECHA Website](#)

According to REACH, if SVHC is contained in products in a concentration that greater than 0.1% and the volume for export is less than 1 tonne, downstream importers shall be notified with such information for communication and also provided with certifications. However, if SVHC is contained in products in a concentration that greater than 0.1% and the volume for export is more than 1 tonne, notification of such information to ECHA is necessary.

### HCT SOLUTION :

HCT possessing wide testing fields and convenient service channels, can help enterprises assess regulated specific chemical substances in products. Thus enterprises can successfully import products to designed target countries.
